Proposal 5: Revision of Amount of Remuneration for Directors and Determination of Remuneration for Granting Restricted Shares to Directors (Excluding Outside Directors)

Currently, remuneration for Directors of the Company consists of fixed remuneration only. However, the Company has reviewed the current remuneration scheme for Directors for the purpose of raising Directors' awareness of improving corporate business performance each fiscal year and giving them an incentive to sustainably increase the Company's corporate value, as well as further promoting shared value with shareholders. Accordingly, the Company requests approval to change the Directors' remuneration scheme so that it consists of fixed "basic remuneration," "performance-linked remuneration" as a short-term incentive, and "share-based remuneration" as a medium- to long-term incentive and to revise the current amount of cash remuneration paid to Directors, as well as to introduce a remuneration scheme for granting restricted shares (hereinafter "the Scheme") to Directors of the Company (excluding Outside Directors; hereinafter "Eligible Directors").

Accordingly, whereas the amount of remuneration for Directors of the Company was approved at the 130th Ordinary Shareholders Meeting held on June 29, 1994 to be up to ¥40 million per month, to coincide with the review of the Directors' remuneration scheme, taking economic factors and other circumstances into account, the Company proposes that the current amount of cash remuneration paid to Directors be revised and basic remuneration and performance-linked remuneration paid to Directors shall be up to ¥360 million per year (including the amount of remuneration to Outside Directors, which shall be up to ¥40 million per year; the amount does not include employee salaries), and that, separate from the aforementioned revised amount, the total amount of remuneration paid to Eligible Directors for the granting of restricted shares shall be up to ¥90 million per year, an amount deemed reasonable in consideration of the aforementioned aims. The specific allocation to each Eligible Director shall be determined by the Company's Board of Directors after recommendations by the Nomination and Remuneration Advisory Committee.

The current number of Directors is nine (9) (including three (3) Outside Directors). If Proposal 3 is approved and resolved as originally proposed, there will be no change in the number of Directors.

Eligible Directors shall, based on a resolution of the Board of Directors, make in-kind contribution of all the monetary remuneration receivables to be granted according to this proposal, and common shares of the Company shall either be issued or disposed of by the Company with the upper limit set at 60,000 shares per year. However, the total number may be adjusted within a reasonable range in the case that a stock split (including an allotment of shares without contribution) or a reverse stock split of the Company's common shares is conducted, or any other reason that requires an adjustment to the total number of common shares to be issued or disposed of by the Company as restricted shares, on or after the day on which this Proposal is approved and resolved. The amount to be paid in per share will be determined by the Board of Directors, based on the closing price of the Company's common shares on the Tokyo Stock Exchange on the last business day before the date of the resolution of the Board of Directors (or if trading is not concluded on that date, the closing price on the most recent trading date prior to that day) within a range that is not especially favorable to the Eligible Directors. For the purpose of such issuance or disposal of common shares of the Company, a contract on the allotment of restricted shares (hereinafter "Allotment Contract") that includes the following provisions in summary shall be concluded between the Company and Eligible Directors.

- (1) Eligible Directors shall not transfer, pledge, or otherwise dispose of (hereinafter "Restriction") the common shares of the Company allotted to them under the Allotment Contract (hereinafter "Allotted Shares") from the date of granting of the restricted shares until the date they forfeit their post as Director of the Company or other post determined by the Company's Board of Directors (however, if the post is forfeited within a period of three (3) months after the lapse of the fiscal year in which the date of grant of the restricted shares, where a separate date is determined by the Company's Board of Directors that is within six (6) months after the lapse of said fiscal year, said stipulated date) (hereinafter "Transfer Restriction Period").
- (2) In the event that an Eligible Director forfeits all the posts set forth in (1) above prior to the expiration of the period separately determined in the Company's Board of Directors (hereinafter "Service Provision Period"), except where there is a reason deemed justified by the Company's Board of Directors, the Company shall rightfully acquire the Allotted Shares for no consideration.
- (3) Provided Eligible Directors have held the post of Director of the Company or other post determined by the Company's Board of Directors continuously throughout the Service Provision Period, the Company shall lift the Restriction at the expiration of the Restriction Period for all the Allotted Shares. However, in the event that an Eligible Director forfeits the posts set forth in (1) above prior to the expiration of the Service Provision Period for a reason deemed justified by the Company's Board of Directors set forth in (2) above, the number of Allotted Shares for which the Restriction shall be lifted and the timing

of the lifting of the Restriction shall be reasonably adjusted as necessary.

- (4) The Company shall rightfully acquire for no consideration any Allotted Shares for which the Restriction has not been lifted pursuant to the provisions of (3) above by the expiration of the Restriction Period.
- (5) In the event that a merger agreement where the Company becomes the non-surviving company, a share exchange agreement or a share transfer plan where the Company becomes a wholly-owned subsidiary, or other matter concerning an organizational restructuring, etc. is approved by the Company's General Shareholders Meeting (or the Company's Board of Directors if approval of the Company's General Shareholders Meeting is not required for the organizational restructuring, etc.) during the Transfer Restriction Period, the Company may lift the Restriction before the effective date of the organizational restructuring, etc. by resolution of the Company's Board of Directors, for a number of the Allotted Shares to be reasonably determined.
- (6) In case as set forth in (5) above, the Company shall rightfully acquire for no consideration any Allotted Shares for which the Restriction has not been lifted immediately subsequent to the lifting of the Restriction pursuant to the provisions of (5) above.
- (7) Methods for expression of intent and notification under the Allotment Contract, methods of amendment of the Allotment Contract, and other matters determined in the Board of Directors shall form part of the Allotment Contract.

At a meeting of the Board of Directors held on February 8, 2021, the Company determined its policy regarding decisions on the content of Directors' remuneration, etc. An overview of the details of those contents is provided on Page 39 (Japanese original) of the Business Report. Provided that this proposal is approved, the Company plans to amend that policy in line with this proposal. In addition, given that the upper limit of the amount of remuneration and conditions for granting restricted shares to Eligible Directors proposed in this proposal have been determined after deliberation by the Nomination and Remuneration Advisory Committee in consideration of its reasonableness in light of the aforementioned objectives, the state of the Company's business, the level of remuneration at other companies, and other factors, and that for the Scheme, the amount to be paid in for the Allotted Shares shall be within a range that is not especially favorable, as stated above, and the dilution rate is immaterial, the Company has determined that the contents of this proposal are reasonable.

The Company plans to introduce for the Executive Officers of the Company a similar scheme for performance-linked remuneration and an arrangement similar to the Scheme to be introduced for Eligible Directors (however, the introduction of the similar arrangement to the Scheme will be conditional on the approval of the introduction of the Scheme by this General Meeting of Shareholders).
